

Creating a complete finance solution.

Backed by 20 years of experience and tens of thousands of installations across over 50 countries, ICT offers an all-in-one solution for your access control, security, and building automation needs. We help keep unwanted visitors outside, while enabling access control and monitoring inside.

What we do.

From the vestibule to the vault and every area in between, the Protege platform from ICT offers comprehensive yet user-friendly security solutions. Financial institution managers and security teams at banks, credit unions, and insurance companies benefit from an intuitive interface and a unified solution, while their customers can rest assured knowing their assets and investments are safeguarded without compromise.

Highlights.

- > Mitigate risks from separate databases and gain peace of mind with a single platform for access control, security, and building automation
- > Oversight is made simple thanks to an easy-to-use platform with reports for all auditing requirements
- > With robust built-in functionality, including vault control and duress alarms, you can ensure your staff's safety is a top priority
- > Native IP Monitoring allows your security team to respond instantly and accurately – no need to tie up phone lines and no delays in response
- > ICT's secure custom integrations – including elevator control and video management – to tailor the system to suit your needs

Benefits.

- > A long-standing, trusted manufacturer that will support you to grow your business
- > Unified offering that saves you time, money, and provides a higher level of security
- > A local team to meet all your sales, support, stock, and training needs
- > Your one-stop shop – just bring the building, we supply the rest
